RE: Construction Update

Thank you for your cooperation since the beginning of construction. The support and understanding of our school community has been fantastic. We truly appreciate it!!!

Access to School & Parking Lot

1. Effective immediately, all outside groups using the school must enter through the Primary Entrance (new main entrance). Please remember that doors must be locked at all times. The security key pad is now located in that entrance.

Fire Escape Plan

1. We had two Practice Fire Drills on Thursday to practice our new escape routes. The Fire Chief was present for the drills. He was very pleased with our students' performance during the drills.

New Main Office

1. Effective October 18th (tentative) the Main office will be located in Room 103 (Formally Ms. Snow-Walsh's Room). Shortly after the move people entering the building will have to be buzzed in. Due to the increased number of people around our building during construction this security system will be put in place as a safety measure.

Happy Thanksgiving Weekend!!!!

Go Habs Go!!!!

Go Bous Go!!!!

Sincerely,
Arthur Winsor
